- A customer focus and good communication skills
- Excellent verbal and written knowledge of German and English language

### **We offer**

- Interesting work in exciting projects with globally operating customers with modern technologies
- Training and instruction in modern Identity & Access Management (IAM) products
- A high level of personal responsibility and discretion in decision-making
- Individual support and ample freedom for personal and professional development
- Good salaries and work with top quality equipment
- Pleasant work atmosphere in a friendly company

IAM Worx GmbH is a subsidiary of the iC Consult Group, specializing in Managed Services in Identity & Access Management (IAM). We support IT departments during normal operation with 3rd level support and software maintenance. All the while, we work in close collaboration with our clients, partners, and iC Consult GmbH.

We consider Identity & Access Management (IAM) solutions to be a central, corporate-wide service that continuously evolves. Our strength lies in standardizing this development while taking account of established methods and simultaneously optimally gearing it to the specific needs of the customer.

**Interested?** Then please email your application as a PDF file to us at [karriere@iamworx.com](mailto:karriere@iamworx.com)
